Heidenreich Builds Another Pool

David Palmer continues his personal streak of never going a day without work has been chosen by Per Heidenreich's Heidmar to become the MD of Heidmar's new Dorado clean product tanker pool. Mr. Palmer's appointment makes this sector a very interesting space to watch. With the sale of the Osprey ships in IPC (see following two stories) and current market interest in Term running very high, the combination of Heidmar's proven Pool management (Star Tankers Pool) capability and Palmer's commitment to marketing industrial shipping relationships would seem to offer a solid commercial haven.
